Message from the Mayor:

Mayor Irons recognized the Green Team Partners for the last quarter. Mayor Irons noted that this program is for businesses and non-profit organizations which agree to make good environmental changes and choices in their work areas.

Ms. Rachel Mansell, Recycling Education and Outreach Coordinator announced the City’s Clean-up event to be conducted on Saturday, April 2nd.

Mayor Irons presented a Proclamation designating the week of February 20th thru 26th as National Arbor Week in the City of Florence. The Proclamation was received by Mr. Preston Hillis, Chairperson of the Florence Tree Commission, and Mr. Paul Graham, Urban Forester and Horticulturist. Mr. Preston made comments regarding the 16th Annual Urban Forestry & Horticulture Conference to be held on Tuesday, February 22nd at Cross Point Church of Christ located on Cox Creek Parkway.

Mayor Irons asked Ms. Michelle Reed, Chairperson for the Families First Program - Shoals Family Success Center, to come forward and share insights about the program as well as what the program has to offer our citizens.
Mayor Irons made comments regarding the recent announcement made by Governor Bentley regarding North American Lighting. Mayor Irons noted that North American Lighting will invest 35 million dollars for a new manufacturing facility in our area with an employment of 250 new jobs. Mayor Irons also noted that retail and commercial developments continue at a brisk pace and that there are other projects that are in the planning stages that will be announced in the next few weeks. Mayor Irons stated that all of these projects are positive news for our area and that he is very optimistic about the City’s future and the new jobs that are being created.

EXHIBIT “A”

MAYOR’S COMMENTS
COUNCIL MEETING-SEPTEMBER 21, 2010

I would like to make some comments today in response to my friend, Councilman Pendleton’s statements in the TimesDaily on Monday, September 20, relating to the potential sale of the former Florence Country Club property to the University of North Alabama.

One of the most inaccurate and misleading comments he made in the interview was his statement that the Mayor cut a sweetheart deal with UNA against the best interest of the City. I am convinced that Mr. Pendleton, after 18 years on the City Council, understands operating procedures and knows that the Mayor does not have the authority to make any deal without the approval of a majority of the Council.

As Mayor and Administrator of our City, it is my responsibility to coordinate many projects and programs on behalf of the City and then bring my recommendations to the Council for final approval or disapproval. Mr. Pendleton knows that is exactly what happened with the potential sale of the Country Club property to UNA. All of the Council knew from the beginning, including Mr. Pendleton, that UNA had an interest in purchasing some of the property and it was up to UNA to come back to the City with an offer at the appropriate time.

This transaction with UNA, if approved by the Council, will be a "winwin" situation for the University and the City. It is definitely an economic development project that enhances future development of the other acreage at the Country Club and the future growth of the West Side of our City. It will also complement the opening of College Street and the redevelopment of West Florence. Growth in the western part of our area will be very important to expedite the opening of College Street to the Sportsplex and Gunwaleford Road. Mr. Pendleton, you are half right. This is a sweet deal. It is a sweet deal for the City and all of its citizens. I wish I had more sweet deals like this to present to the Council.

To recommend the usage of the large, expensive Club House as an office for the Street and Sanitation Departments or for that matter, any City Department, is unwise and would not be good financial management of taxpayer dollars. This would add a tremendous cost to the collection of solid waste and in all likelihood, would require an increase in garbage collection fees. This increase in fees to our citizens is exactly what I am trying to prevent by selling the property and recovering part of the initial investment which was our plan from its inception. We realized that the City did not need 150 acres of land surrounding the Landfill, but it was the only way the property could be purchased.

In response to Mr. Pendleton's comment that he and I took the heat for buying this property, is not the way I remember it. There were 6 Council members and myself involved in the purchase and we took the heat equally. Before I even knew the property was for sale, Mr.
Pendleton and several other Councilmen approached me to research the possibility of buying this property for Landfill purposes.

I would like to make it clear that I am not getting out of the heat or anything else as accused by Mr. Pendleton. I am trying to uphold my duty to the citizens by recommending a sound financial transaction by bringing $1.2 million back into the City treasury and continuing to control cost of solid waste operations. And, I am trying to do everything I can to encourage development in the West Side of our community.

In addition to Mr. Pendleton’s comment about his disappointment in me, I must remind him that I am a person who studies the issues thoroughly before making any decision and then I have the fortitude to stand by that decision. Elected officials who constantly change their positions on issues depending on the way the wind blows eventually lose the respect of the community.

Again, I want to emphasize that the proposed sale of this property to the University is a “win-win” situation for our City and UNA and I strongly recommend that the Council approve the sale at the appropriate time.
